EDUCATION

Aspiring Full Stack Java Developer

Naresh i Technologies Ameerpet Hyderabad

06/2025 - Present

Bachelor of Engineering

Anuradha College of Engineering and Technology Chikhli

01/2022 - 05/2025

CGPA : 7.56

Courses

- Computer Science and Engineering

Diploma in Engineering

Government Polytechnic, Murtizapur

09/2020 - 07/2022

Percentage : 73.60

Courses

- Information Technology

EXPERIENCE

Android App Development Intern

Mountreach Solution Pvt Ltd

07/2022 - 09/2022

Amravati Maharashtra India.

Achievements/Tasks

- Developed a Smart College Management Android app featuring role-based login and QR code integration using Java, XML, MySQL, and Google Maps API to streamline institutional operations. Designed intuitive user interfaces and implemented backend functionalities for secure data management and seamless user experience.
- Collaborated on RESTful API development and integrated multiple databases to ensure reliable data access and communication across admin, faculty, and students.

Contact : 8208187488 - mountreachsolution@gmail.com

STRENGTHS

Deep understanding of OOP concepts, collections, multithreading, and exception handling.

Comfortable using Git/GitHub for source code management and collaboration.

An design web pages using HTML, CSS, and JavaScript

Basic knowledge of JSP and Servlets

Know how to debug code and write simple unit tests

TECHNICAL SKILLS

HTML 5

CSS

Java Script

Bootstrap

React

C

Core Java

Advance Java

Python

PHP

MySQL

Oricel

Basic SQLite

PERSONAL PROJECTS

Smart College Management Android Application
Final Year Project (02/2022 - 06/2022)

- Built a Smart College Management Android app with role-based login and QR code features using Java, XML, MySQL, and Google Maps. Created user-friendly screens and added backend functions to manage data safely and improve the overall user experience.

Weather Wev Application (05/2025 - 07/2025)

- Developed a Weather Application using HTML and JavaScript that displays real-time weather information. The app allows users to search for any city in the world and view the current weather. Five popular cities are pre-added for quick access. It also shows the current date along with weather details.
